Subject: Summary of FPT discussions Feb 14, 2022

Hi Talal and Kevin,

By way of quick summary, below please find highlights of today's discussion.

Happy to adjust as required

Julie

FPT Discussion with TC/PS/RCMP, and Manitoba and Ontario ADMs Justice/PS (Alberta absent from call)

- PS and TC shared, generally, the measures that are being considered to give effect to the invocation of the *Emergencies Act* today, including the power to compel essential services and protection of critical infrastructure.
- Manitoba noted timing of announcement at same time as progress being made with protestors. Expects/hopes that positives trends will continue in the following days.
- Ontario focused largely on implementation of their own emergencies measures, but generally positive toward the announcement today and curious to learn more details when available.
- During discussion, was able to clarify that the invocation of the *Emergencies Act* is not intended to assume control of provincial jurisdiction of policing. Provinces noted that plain language guides for police on how to interpret measures under the EA would be appreciated.
- TC noted they will connect with critical infrastructure operators tomorrow to discuss measures as well.
- All looking forward to FPT CPPC meeting tomorrow where this issue will be discussed.
